# The Clairvoyant One-Year Program<sup>+</sup> One-Year Program

## Clairvoyant Training

The Clairvoyant Program is a 'sanctuary' in which a spiritual being explores who they really are in their physical body, by seeing themselves in others. You get stuck, get unstuck and create miracles along the way, being amused at how you create ... .. or not.

You also learn to become more neutral to situations so you can utilize your own energy pro-actively, rather than in resistance.

The basis of 'Spiritual Freedom' is realized by not having to give up yourself to something else, but rather to truly 'be' who you really are in your life. Clairvoyant training does not promise to make you more positive, popular, better looking, active or honest, but after working energy, you may feel that way and truly amaze yourself.
