

3-Month Spiritual Healing Packages

3 months for a reason ~ Minimum once a week

These packages are designed to work on your energies non-stop, no breaks. It runs constant, as unwanted energies are eliminated until the completion of your 3-month term, the amount of time it takes your cells to change. It's like any other 3-month regimen whether a fitness gig, acid peel or academic pursuit. It takes 3 months consistently, not all in a blob at once.

There is a reason for each step and a reason for spacing and pacing. A Spiritual Healing Package includes various minimum healings, as well as other healings which you can select to enhance your package.

Begin with a 2-Hour Reading or a 1-Hour Package Prep Reading with me if you have recently had a 2-Hour. We'll assess your Goals and assign Healings.

The package is designed to allow you to 'receive' assistance; release that which no longer serves your highest good, and replenish with your highest creative essence and health & wellness in your body.

The overall cost for this package will vary depending upon what you select, but there is a minimum basis on which to begin. There are many 'free clinics' which you will be encouraged to attend during your package, as well.
