

# What Do the Colors Mean?

The colors don't necessarily 'mean' something, but they are telling a story. The colors are reflections of your energy frequency.

For instance: Where is the color? Is it in a layer of your aura or in a chakra?  
Is it channeling in from outside or emanating from within?

Are we looking at your energy or someone else's energy in your space?  
Is that energy coming; or going; or stuck?

Once we determine that, it is easier to interpret what the colors 'mean'. But to keep it simple, here are a few common representations of the colors:

Ultraviolet:	Spiritual or Religious Devotion. Mystical. Faerie Energy. Magic. The Violet Flame of St. Germaine. Spiritual Cleansing. <u>Anything</u> .
